Foreword

This emergency plan describes the procedures that will be used by Hopwood School & Camp to provide for the care and the well-being of the children under our care and our staff. This plan is meant to address circumstances that threaten lives and property. The procedures outlined in this plan constitute those temporary measures that will be taken to provide the best available protection for persons under our care. The plan relies on the organization and procedures that are followed on a day-to-day basis. The intent is not to introduce new ways of doing things during high-stress situations.

Much of what is needed to implement a plan like this one should be treated as sensitive information. The exact locations of shelters and assembly areas and the routes to be taken during an evacuation may be useful information to someone with ulterior motives. For this reason, parts of the plan will not be released to the general public. Important details from the plan are sent home with parents in orientation materials and periodic mailings. The entire plan is available for parents to review in the facility.

The plan itself is organized into three parts; the "Basic Emergency Plan"; a series of checklists and a series of supporting documents. The Basic Emergency Plan provides overall concepts and assignment of responsibility. It does not contain great amounts of detail. The detail in the attachments and checklists should be confidential. The information in the checklists is arranged by function, recognizing that the evacuation planned for a HAZMAT spill will work just as well for a winter storm.

Public safety officials should be aware of the provisions of this plan. The Office of Child Development and Early Learning certification representative will also review the plan when inspecting the facility. The responsibility of the Child Care facility is to develop, maintain, conduct drills in accordance with state licensing policy, and implement the plan. A current copy of the plan will be provided to the local municipality and county emergency management agency.

 - Provide training for staff, including substitutes;
 - Orient children on emergency procedures and responsibilities; and
 - Develop skills needed for a real emergency.
 - New staff will be trained in compliance with state licensing regulations
- Special Medical, Physical or Behavioral Needs
 - The child care facility will maintain a current listing of any children or staff who have a condition that may require special accommodations or action to allow that person to take appropriate protective measures during an emergency (See Supporting Documents, Attachment 12.) The special accommodations listing will include infants, toddlers, children with disabilities and children with chronic medical conditions.
 - A staff member will be assigned responsibility to ensure that those individuals take the appropriate protective measures (evacuate or shelter in place.)
 - If special needs include medications or any physical equipment, a staff member will be assigned responsibility to ensure that the medications or equipment accompany the individual with special needs.
